

# Success Starts With MEGA BEEP

Lead Retrieval just got easier and a lot trendier!

There is a sweeping variety of lead retrieval units on the market today. But which will work best for you? Which one will optimize your time? Which one will provide you with reliable functionality that you can count on?

Which company is armed with lead retrieval units that are designed for today's competitive marketplace?

**The answer is MEGA BEEP!**

MEGA Beep has won a loyal following of sales people just like you, who value success with the durable lead retrieval units and productive answers that they offer! Unlike other companies, MEGA Beep takes time to work with you and offers real-time assistance and support.

**MEGA Beep will help you tackle the dirtiest of jobs with these remarkable units.**

### **Code Reader 2.0 (CR2)**

Utilizing Bluetooth class 1 radio with a 300 foot operating range, the cordless version of the CR2 will operate for more than a complete shift at the highest use rate, and can perform more than 4000 reads and transmits from a single battery charge.

### **Code Reader 3.0 (CR3)**

This revolutionary unit is the smallest and lightest full-featured bar code reading terminal on the market.

It's the 2.0... but better and more dynamic and extends mobile all-symbology bar code reading to include information display and keyboard entry- all for a sweeter performance.

### **The ExpoBadge**

This effective all in one base station reads 2D and 1D barcodes, magnetically encoded badges and even smartcards. The VeriFone Omni 3750 terminal with an integrated smart card reader packs all the performance and processing capabilities you need in your credit card machines, into a compact, ergonomic "hand-over" device that can be easily passed to customers for PIN entry.

**For those of you with higher standards....Get Beeped-MEGA BEEPED!**
